---

## WORK EXPERIENCE

**Software Developer Intern-** Computers for Kids, Inc. CFK (Boise, Idaho) Sep 2019- Present

- Designed, developed and tested a database using MS SQL for the project
- Designed and developed form pages using Bootstrap and JavaScript instead of static PDF forms
- Assisted the team in converting static HTML website into dynamic .NET(4.6.1) website using C# with SQL Server 2017 back-end
- Assisted the team to migrate Linux based database to windows SQL Server
- Updated code provided email integration as well as user, and site information stored in SQL Server tables
- SQL Server integration allows CFK to generate and track complete customer information for CRM and sales purposes
- Assisted team members in converting legacy PERL scripts into Python scripts, This allows CFK to protect the vital system functions from stale, sometimes deprecated, system scripts by using current, supported verbose scripts. This will protect vital company operations from unexpected outages
- Set up Slack for group communication
- Ensure clear documentation of created/modified functionality
- Work with the team and other developers across the company to continuously improve our approach to development

**Electrician - HASHMI** (Calgary, Canada)

Dec 2016- Dec 2017

- Working with a journeyman and following the procedure (Residential, Commercial, and Service)
- Utter flexibility in terms of working hours and the work locations
